# Always Challenging, Always Fun!

All of us at InnerCity Tennis are pleased to offer the Cities Academy, our dynamic program for aspiring junior tennis players.

With the Cities Academy, we provide a comprehensive tennis training system built on years of experience and the best practices of top academies around the world. And it's right here in the Twin Cities!

We start by providing excellent on-court coaching and programs for every age and every ability, from the youngest first-time beginners to our seasoned tournament players. A player can enter at any stage along the ICT Player Pathway and find a place to learn, improve, and have tons of fun.

Whatever your age and skill level, we have a program that fits you.

In keeping with the ICT mission, we also strive to help kids from all backgrounds reach their full potential off the court. We do this by teaching essential life skills, such

as healthy habits, growth in personal character, and a commitment to lifelong learning and community service. We've woven life

skills development right into the Academy's curriculum because, alongside parents and other caring adults, we know we can play an important supporting role in helping the young people we serve grow up to be happy, healthy, productive adults.

We provide the professional coaching, facilities, and a learning environment that is always challenging and always fun. All you need is your racket and a commitment to improve. See you on the courts!

## PERFORMANCE PATH

The Performance Path is for players who are committed to year-round training and tournament play and aspire to reach the highest levels of the game, including college tennis and beyond. The Academy's team of highly skilled performance coaches have the knowledge and experience to help young athletes reach their highest potential. Working together, coaches help each athlete set clear goals and move them up the Performance path at a steady and appropriate pace. This level of training requires a high degree of commitment from both players and parents. Financial assistance is available for those who qualify.

Beyond developing good tennis players, our coaches are also intent on developing good people, who have the skills they need to succeed in life. They do this by creating an ideal environment for young athletes to thrive physically, mentally, emotionally, and socially. Their ultimate goal is to nurture future leaders who exemplify ICT's seven core values and earn the great rewards that come from setting high goals, maintaining an undying positive attitude, having honorable character, and giving 100% maximum effort.

# HIGH PERFORMANCE PLUS

**Selah Stibbins**

Nationally Ranked Junior

For families who would like a custom-designed, comprehensive program for their athlete, Aly Samabaly and our Performance coaches will design and direct a year-round developmental plan for the athlete. The Total Athlete Development Plan® provides a complete roadmap for the athlete and parents to follow as they move through the sometimes complex world of junior tennis. It includes a player profile, short and long term goal setting, annual training and tournament schedule, frequent assessments, ongoing guidance and communication, private and tournament coaching, personal training, and much more. This personalized, coach-guided assistance provides the very best way for athletes to efficiently achieve their goals and reach their fullest potential.

Comprehensive programs like this can be costly, but InnerCity Tennis is committed to making this and other programs accessible to diverse families from all over the city. InnerCity Tennis offers full and partial scholarships to athletes who otherwise would not be able to afford the cost of training and competing at the highest levels of the game.

*At InnerCity Tennis, we believe that every kid needs and deserves a coach-mentor, the encouragement of a team and a welcoming community. For more than 65 years, we have offered programs that use tennis to tap into the deep potential within each child through no-fee and scholarship-eligible youth programs. Tennis is the vehicle that draws the kids in and provides a pathway to success in school and life. Our on and off court programming is designed to improve the physical health, social/emotional skills, and character of our participants, while helping to close the gap on health and educational disparities for underserved kids in Minneapolis.*

### Mission

We develop and unleash the potential of youth on and off the tennis court by engaging and serving a supportive community.

### Our Youth Programs

We offer programs to increase access to this lifelong sport in schools and neighborhood parks throughout Minneapolis, and ICT's tennis center programs give underserved youth and families the chance to try tennis in a remarkable facility. Our comprehensive programming includes everything from no-fee, one-time drop-in programs to intensive training for players with the talent and drive to become elite high school or college competitors. There is an entry point and pathway to success for each child who steps on the court.

### Kids We Serve

Each year we reach over 5,000 young people, ages 3 to 18, including at-risk kids, children of color, children from low-income families and children diagnosed on the autism spectrum. ICT attracts diverse families from all over the city, and our no-fee programs and scholarships ensure that our programs are available to all children regardless of financial circumstances.

### Engaging Our Tennis Community

Our broader tennis community of adults provide invaluable support for our youth development programs through their volunteerism, donations and partnership. Together with our staff and teaching professionals, adults who participate in ICT programming "play with purpose," in that they help provide a supportive and caring community for the youth we serve.

### Support Us

As a social enterprise, InnerCity Tennis is a non-profit, mission-focused, tax-exempt (501c3) organization that delivers both financial and social returns to further its mission. Our tennis center, together with the contributions of our generous donors, provide the critical financial support needed to deliver ICT's life-changing programs for youth.
